

## Student Involvement Project Part 1-Research and Discover

### Instructions:

Research 5 student involvement opportunities available on campus. These can be anything from musical ensembles to clubs, from student governments to athletics, from volunteerism to employment. The purpose of this assignment is to discover what the University has to offer you as a student, so that you can become engaged with your community, discover your passions, and learn how to channel these passions to get the most out of your experience at the University of Guelph. Good places to start your research are [www.uoguelph.ca](http://www.uoguelph.ca) and [www.csaonline.ca](http://www.csaonline.ca).

Once you have completed your research, you will provide a profile on each of the 5 opportunities that you researched by answering the following questions:

Name of Organization:

Description of what they do:

When did they start?

Why did you choose to research this club?

How accessible was the information that you found?

How did you access this information?

Do you see yourself getting involved with this organization? Why?

How would you go about getting involved? What would you do within the organization?

Contact Information for a representative from this organization:

Please note that you should submit 5 separate sets of completed questions – one for each opportunity that you researched. Each set of questions should total a minimum of 250 words, meaning that your entire assignment should be at least 1250 words in length. Please write in full sentences and ensure that you are using correct spelling and grammar.

### Deadline:

You will submit your completed research profiles as a word document to the Community Standards Assistant, at [rezrules@uoguelph.ca](mailto:rezrules@uoguelph.ca), by 11:59 pm on the deadline outlined in your sanction letter. Please include the name of your assignment in the subject line of your email.
