

## **The Costs of Vandalism:**

In this assignment you are asked to account for the costs of vandalism. In part one of your assignment, you must research how much it would cost to cover the damages associated with your act of vandalism and create a list of these costs. You should include costs of supplies and labor associated with repair and cleaning, as well as replacement fees. You should also make a note of intangible costs such as the inconvenience of your peers or harms to your community associated with a hurtful message conveyed through your vandalism.

In part two of the assignment, you are asked to reflect upon the costs of your vandalism and discuss whether you would like to change your actions related to vandalism after reflecting upon these costs. You must also discuss the actions that you will take in order to restore the damages that your vandalism caused to your community.

### **Requirements:**

- Typed, double spaced
- Minimum of 600 words
